11 essentials numerical reasoning for cem quick fire questions multiple choice book 2 first past the post police maths tests 250 practice numerical reasoning questions answers Inductive reasoning is a method of reasoning in which the premises are viewed as supplying some evidence for the truth of the conclusion, this is in contrast to deductive reasoning. While the conclusion of a deductive argument is certain, the truth of the conclusion of an inductive argument may be probable, based upon the evidence given.. Many dictionaries define inductive reasoning as the ...
