15th iee real time and embedded technology and applications symposium rtas 2009 13 16 april 2009 san francisco ca Overview of the simulation model of the IEEE 802.15.4 protocol. The idea behind this simulation model was triggered by the need to build a very reliable model of the IEEE 802.15.4/ZigBee protocols for Wireless Sensor Networks (WSNs). According to our personal experience, we strongly believe that the current version of the WPAN implementation in the Network Simulator (ns-2) simulator is not ...

15th IEEE Real Time and Embedded Technology and Applications Symposium (RTAS) 2009, 13-16 April 2009, San Francisco, CA. The Web of Things (WoT) is software architectural styles and programming patterns that allow real-world objects to be part of the World Wide Web. Similarly to what the Web (Application Layer) is to the Internet (Network Layer), the Web of Things provides an Application Layer that simplifies the creation of Internet of Things applications. Rather than re-inventing completely new standards, the ...

15th IEEE Real Time and Embedded Technology and Applications Symposium (RTAS) 2009, 13-16 April 2009, San Francisco, CA. Figure 1. Artificial neural networks are built from simple linear functions followed by nonlinearities. One of the simplest class of neural network is the multilayer perceptron, or feedforward neural network, originating from the work of Rosenblatt in the 1950s. It is based on simple computational units, called neurons, organized in layers. Writing  $i$  for the  $i$ th layer and  $j$  for the  $j$ th unit of ...

15th IEEE Real Time and Embedded Technology and Applications Symposium (RTAS) 2009, 13-16 April 2009, San Francisco, CA. Exponentiation is a mathematical operation, written as  $b^n$ , involving two numbers, the base  $b$  and the exponent or power  $n$ . When  $n$  is a positive integer, exponentiation corresponds to repeated multiplication of the base: that is,  $b^n$  is the product of multiplying  $n$  bases:  $b^n = \underbrace{b \cdot b \cdot \dots \cdot b}_n$ . The exponent is usually shown as a superscript to the right of the base. In that case,  $b^n$  is called "b ...

15th ieee real time and embedded technology and applications symposium rtas 2009 13 16 april 2009 san francisco ca The focus of this work is on the condensing boiler case, because this kind of equipment is becoming more and more adopted. The relevance of the condensing boiler case arises from the fact that, with respect to the total HVAC operation, boilers are estimated to contribute to 85% of the energy consumption and 67% of the CO<sub>2</sub> emissions. The temperature of the flue gas exiting a traditional boiler ...
