1993 the european market myth or reality The Single Market Strategy. The Single Market Strategy is the European Commission's plan to unlock the full potential of the Single Market. The Single Market is at the heart of the European project, but its benefits do not always materialise because Single Market rules are not known or implemented, or they are undermined by other barriers.

1993 the european market myth or reality Points out that identifying appropriate market segmentation bases has been a recurrent problem in marketing. Compares the predictive power of income and attitude towards cultural change in the context of luxury goods. The results show that those two indicators are rather independent from each other and contribute almost equally to explaining luxury goods consumption.
