advances in space science and technology volume 4 Space research is scientific study carried out in outer space, and by studying outer space. From the use of space technology to the observable universe, space research is a wide research field. Earth science, materials science, biology, medicine, and physics all apply to the space research environment. The term includes scientific payloads at any altitude from deep space to low Earth orbit ...

advances in space science and technology volume 4 Space Cadet is a 1948 science fiction novel by Robert A. Heinlein about Matt Dodson, who joins the Space Patrol to help preserve peace in the Solar System. The story translates the standard military academy story into outer space: a boy from Iowa goes to officer school, sees action and adventure, shoulders responsibilities far beyond his experience, and becomes a man.

advances in space science and technology volume 4 COVER Pronghorn (*Antilocapra americana*) ford the Green River in Wyoming, United States, on a 160-km migration in search of high-quality food. To navigate successfully, ungulates (hooved mammals) must learn when and where to migrate, and reintroduced populations of bighorn sheep and moose demonstrate that this knowledge is passed across generations.

advances in space science and technology volume 4 2070. Islam is the world's dominant religion. By 2070, Islam has overtaken Christianity to become the dominant religion.\* More than a quarter of the world's population was Muslim by the 2020s\* and this growth continued in subsequent decades. Most of the increase has occurred in sub-Saharan Africa with its high fertility rates, although these are beginning to stabilise now.
