descriptive index of patents applied for and patents granted The extant literature adopts a variety of approaches to the analysis of narratives in annual reports. These are summarised in Fig. 1. 3 Although what is being measured varies across approaches, the implicit underlying construct of interest is generally the "quality" of disclosure. The major distinction to be made is that between subjective analysts' ratings and semi-objective approaches.

descriptive index of patents applied for and patents granted A trademark is a word, phrase, or logo that identifies the source of goods or services. Trademark law protects a business' commercial identity or brand by discouraging other businesses from adopting a name or logo that is "confusingly similar" to an existing trademark. The goal is to allow consumers to easily identify the producers of goods and services and avoid confusion.
