sitting on death standing to life Evidence suggests that prolonged sitting is common in Australian workplaces. It is associated with significant negative health outcomes and is increasingly being recognised in the community as an important issue that needs attention.

### **Sitting and standing | Safe Work Australia**

sitting on death standing to life Sitting is a basic human resting position. The body weight is supported primarily by the buttocks in contact with the ground or a horizontal object such as a chair seat. The torso is more or less upright. Sitting for much of the day may pose significant health risks, and people who sit regularly for prolonged periods have higher mortality rates than those who do not.
