spirit walk walk 1 2 A walk-in is a new-age concept of a person whose original soul has departed his or her body and has been replaced with a new, generally more advanced, soul. Ruth Montgomery popularized the concept in her 1979 book, Strangers Among Us.. Believers maintain that it is possible for the original soul of a human to leave a person's body and for another soul to "walk in".

spirit walk walk 1 2 A customization point is a code construct that the user can leverage to specialize how a particular library action is handled. A common way of implementing this in C++ is to define a template with the default behavior, and let users specialize it for their own types "e.g., std::hash". This is the story of Spirit X3 and how it lets you specialize customization points without ever leaving ...
